

Restoration Ranch

Restoring Children, Raising Leaders, Reaching Nations

Life on The Ranch

Fresh air, Nutritious food grown on the property, and Fun.

Liam and Nico Miller have moved into Restoration Ranch, and we absolutely love seeing children run and play and ride their little cars on the property. The sounds of laughter (and of tears too) ring out all the time. We've been longing to see little ones take up residence in the place God has prepared for them, and that so many of you have sown love, prayers, and finances into.

1

WILL AND TARA

We welcome the Miller family and Filters of Hope

2

ARIEL GRACIANO

After years of laboring together as volunteer, Ariel now works with us.

3

DANNY AND DENISE

Danny is excited to spend more time preaching.

Next Stage

We are truly excited about all the progress happening at

Restoration Ranch this year. It's like 2017 has started off with a bang and is telling us that the

roots are strong and this year we see the fruit of what has been sown!

The Next Stage of RR

The board has elected Denise as the new President and director of RR

At Danny's request, and because of his deep desire to spend more time in preaching and teaching the Word of God, the board unanimously accepted his resignation and his request that Denise be elected as president of Restoration Ranch.

“Danny’s talents helped take it this far, now Denise’s will lead the next phase.”

We are experiencing an excitement around us and in us, and know that this is God's plan for this stage of growth of Restoration Ranch. We see that within weeks we may be able to bring our first house parents on staff. As we add parents and children, sponsorships will be needed and available, and we look forward to seeing these relationships created. Please pray for these children, us, and these house parents.

Ariel Graciano

Many of you will recognize Ariel Graciano as the young husband and father who, along with his wife, helps us with ministry at La Curva community. Thanks to a church who has agreed to sponsor him to work with us at Restoration Ranch, he is now working five days per week on the property. A second church is sponsoring his insurance and social security costs we have to provide. Together it's possible. He is a loving and hard-working man, with a mechanical and artistic gift, and he uses those gifts to minister to children and to anyone else with whom he comes in contact. We are delighted to add him to our staff.

MEET WILL AND TARA MILLER

A delightful young family has joined us at Restoration Ranch, and we are so excited to have them. Will and Tara have lived in the D.R. for three years, have learned Spanish, and are acclimated to the local culture. They bring a fresh perspective to us and youthful energy, as well as experience of working in other nations. Their son, Liam, was born in the Philippines, and Nico was born here. They are field reps for Filters of Hope, an organization that helps provide water filters for those who can't afford to purchase potable water. And now they bring their experiences and their passion to Restoration Ranch.
